

MASTER THE SKILL OF FASHION

ELECTIVE STREAMS:

- Fashion Design
- Fashion Communication & Buying

NORTH WEST SCHOOL^{OF} DESIGN

North West School of Design (NWSD), founded by awarding winning and highly recognized Fashion Entrepreneur Marlene Oosthuizen, has recently celebrated 22 years of training International and South Africa's top designers and fashion professionals. From 2013 the institution provided the South African fashion industry aspirants the opportunity to gain certification from the internationally recognised City and Guilds in Fashion Design or Fashion Buying and Communications. As per the DHET, it is unfortunate that City and Guilds is no longer recognized in South Africa as of 2018 – this has provided an opportunity for NWSD to reinvent the brand and become aligned to the HEQSF at an appropriate NQF level. Through research and commitment, NWSD has designed a NQF Level 6: DIPLOMA IN FASHION DESIGN which has been submitted for accreditation.

The 3-year programme in Fashion Design aims to provide the technical skillsets and practical techniques fashion designers need to conceptualize ideas, create blueprint patterns and, construct apparel by applying finishing techniques to production processes. It also aims to provide understanding of the core theoretical principles and practices that are integrated into the business of fashion, encouraging an entrepreneurial mindset able to justify the impact of the fashion world in driving international markets and globalization. Graduates entering the industry have a variety of career options available and gain valuable exposure through real-world work integrated learning experiences throughout the three years. The course encourages specialization within the discipline and provides access to further lifelong learning opportunities.

The North West School of Design is situated in the City of the People - Klerksdorp, North West. Together with Rustenburg, Klerksdorp forms the economic heart of the Platinum Province, North West Province.
